## Future POS Wins Award at RSPA for Outstanding Applications Software Provider

For the third time in four years Future POS was honored with an award from the Retail Solutions Providers Association. Future POS was awarded the Bronze Award for Outstanding Applications Software Provider this year by the Retail Solutions Providers Association at its annual convention held in Las Vegas, Nevada at the Mandalay Bay Hotel and Casino. The RSPA is an organization dedicated to bringing the best of point of sale technology to the retail, hospitality and grocery industries.

The staff at Cutting Edge Solutions, the company that develops Future POS, considers this award a reflection of all of their hard work and dedication throughout the past year in delivering the very best in point of sale software.

“Future POS is extremely honored to have received the Bronze Award for ‘Outstanding Applications Software Provider’ from the Retail Solutions Providers Association (RSPA). We believe that it reinforces our commitment to providing quality solutions to our customers, as

we've won such an award three times in the last four years. To win an award with this kind of consistency should leave no doubt in anyone's mind that we are a top notch product and company." said John Giles, President of Cutting Edge Solutions.

The RSPA awards the top three companies in each category based on member feedback. Giles and the staff at Cutting Edge Solutions are looking forward to competing for an award from the RSPA next year due to the increased functionality of Future Fusion, the latest version of Future POS.
